

Storyboard – Final Version:

Time Allocation

Each scene has been allocated with a precise duration of time that must be adhered to, in order for the total time to be kept within the design brief of 62 seconds, in order to be able to fit into the televised airtime slot.

| Scene | Duration |
|--------------|-----------------|
| 1 | 4 Seconds |
| 2 | 5 Seconds |
| 3 | 9 Seconds |
| 4 | 10 Seconds |
| 5 | 1 Second |
| 6 | 5 Seconds |
| 7 | 3 Seconds |
| 8 | 2 Seconds |
| 9 | 3 Seconds |
| 10 | 3 Seconds |
| 11 | 4 Seconds |
| 12 | 3 Seconds |
| 13 | 1 Second |
| 14 | 2 Seconds |
| 15 | 8 Seconds |

Total 63 Seconds

The total time is 1 second over the allocated time. This is not a major problem, as this can be reduced in the editing package by excluding a certain scene or by overlapping some scenes.
